The actual amount in 2004-05 for depreciation expense was vastly under budget due to the effects of GASB 18, which requires the recalculation of landfill depreciation whenever a new cell becomes available to accept waste. However, this did not impact the financial resources of the Solid Waste Management Division (SWMD) because depreciation expense is a non-cash transaction that is adjusted annually merely for accounting purposes. Actual revenues were approximately \$5.6 million less than budget due to the net impact from the following: (1) requirements and restrictions of the California Integrated Waste Management Board (CIWMB) stopped planned transfers in from the SWMD Financial Assurance Fund in the amount of \$3.8 million to fund projects; (2) approximately \$3.5 million for the final distribution the 1999 Series A Bond was reclassified by the Auditor/Controller-Recorder from operating transfers in to a balance sheet account; and (3) these decreases were partially offset by approximately \$1.7 million in transfers in from the SWMD Operations Fund to cover project deficits.
